

connovate WeighSmart cws 30

With today's busy life style, weight management and tracking is a real challenge.

Monitoring weight and keeping track of progress is a mundane task that makes people more reluctant towards managing weight.

Connovate WeighSmart CWS 30 is the way to get smart in tracking your weight.

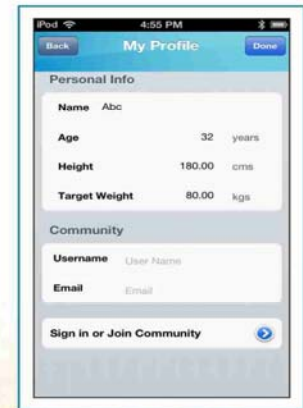

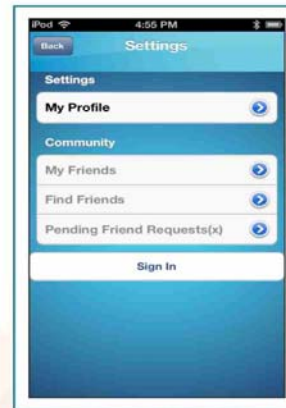

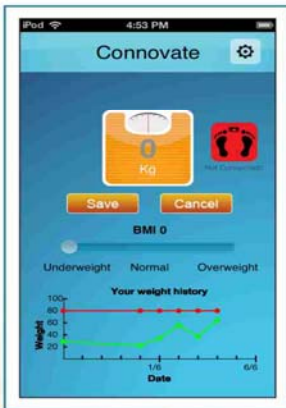

Connovate WeighSmart CWS 30 is an advanced digital health scale that comes along with a Free Smart Phone App. CWS 30 has in-built Bluetooth Low Energy (BLE) technology that records the weight every time you step on it. The recorded weight is transmitted instantly to your smart phone. Track the weight along with corresponding BMI (Body Mass Index) on your smart phone.

Weight can be viewed in a table format as well as on a line graph. CWS 30 enables tracking weight of your family members too. You can share this information with your friends, Doctors, Dietician or coach for guidance and motivation.

4.0
Bluetooth
